RADinfo SYSTEMS™ Introduces Orthopedic Templating Solution

DULLES, VA --(PR NEWSWIRE)— July 14, 2006 – RADinfo SYSTEMS Inc., a leader in affordable RIS/PACS and Teleradiology solutions, introduces a new orthopedic templating software application, **PowerPACS® e-Templating**.

“The technological advancements of the orthopedic market today are pushing companies to reassess the products and services they provide,” said Dr. Chen-Tai Ma, President and CEO of RADinfo SYSTEMS. “As the orthopedic marketplace continues its migration to digital technology, it demands cost-effective solutions to improve patient care and reduce expenses.”

With PowerPACS® e-Templating, orthopedists can streamline pre-operative planning with the use of more accurate and reliable tools. Key features of the system include:

- An easy to use, intuitive interface means surgeons can begin using the system immediately.
- Integrates with any DICOM-compliant PACS, including the ability to save templated images to your facility’s PACS, when complete.
- Extensive template library from major and specialty manufacturers.
- PowerPACS® e-Templating offers improved quality of measurements and increased confidence in making assessments.
- Viewing options include zooming, panning and multiple window layouts.
- Easily adjust image contrast, brightness, edge enhancement, inversion and rotation.
- Unique toolsets enable a wide range of digital measurements to be carried out.

“As a healthcare informatics developer, we are constantly striving to help medical facilities more effectively use their resources. Our PowerPACS® e-Templating software is our newest resource available right now for orthopedists to improve productivity,” Dr. Ma concluded.

About RADinfo SYSTEMS:

RADinfo SYSTEMS is leading the revolution towards truly affordable filmless healthcare systems. The company’s products focus on empowering imaging facilities with reliable components of Radiology Information Systems (RIS), Picture Archiving and Communication Systems (PACS), and Teleradiology Systems at a fraction of the cost compared to larger competing solutions. RADinfo SYSTEMS develops and integrates DICOM and HL7 compliant software with modalities and other radiological hardware to deliver state-of-the-art solutions to hundreds of small and large healthcare providers worldwide. Professional services include software development, consultation, integration, installation and 24x7 technical supports. Delivering Solutions that Meet Your Vision™ since 1993, RADinfo SYSTEMS’ headquarters is located in Dulles, VA and can be found on the web at www.RADinfoSYSTEMS.com.
